MERIDIAN FORGE / WEEK 03 / ANALYST DOCUMENT

Stakeholder Map

Participants by Stephania Malagon · Revision 2737

Proposed QA Control Review / participation and decision rights

PEOPLE	RELATIONSHIPS	NEXT CONVERSATIONS
Who is affected?	Who contributes and decides?	What needs confirmation?

1. People and roles

QA and night-shift operators

Nia Voss states in W03-S01 that the Night QA/Shift Operators are affected, they perform the checks and record exceptions. The night shift operators are in need of representation.

Engineering

Elias Chen's contribution involves being able to explain the commands used originally. As well as, explaining scheduler records and technical reviews and feasibility. Elias is not able to identify the origin of the repeated commands. What Elias needs are read-only exports with source details. Elias also has the need for the record custodian to attend a short access discussion.

Operations

Mara Ilyan's role has to do with managing QA teams and connecting other roles adjacent. She prioritizes solving the issues at hand. She can confirm the missing participants but has to form another decision regarding the night-shift participation.

Sponsor and record custodian

Record Custodian: Holds the command authorization. Record Custodian has no named contact.
Sponsor: Sponsor role can authorize the proposed work within the organization's approval process, according to W03-S03.

2. Relationships and next steps

Competing needs and tradeoff

Night-shift participating in a daytime meeting is a schedule conflict that has not been resolved according to W03-S04 and that a night-shift operator is absolutely necessary according to W03-S01. It's important to accommodate night-shift's schedule and not just appeal to day-shift operators.

Consultation plan

QA: Nia Voss
Engineering: Elias Chen
Operations: Mara Ilyan
Missing Contacts: Sponsor, Record Custodian

Missing voices and validation

There is no confirmation on the participation of the sponsor, record custodian, nor the night-shift. Elias Chen should seek confirmation as he suggested the record custodian knowledge.

Next step toward requirements

A night-shift operator must be selected for the meeting, as well as the identity of the record custodian. My map helps invite the right people because it invites only the people that are necessary to resolve this case.

3. Book evidence connection

Book form connection

I wanted to seem professional and so I tried to write out and relay information in a detailed manner, writing full names and evidence titles, and other factors. I believe this has helped my documentation skills and thoroughly explaining scenarios and questions in case someone else jumps in the middle of the case.
